CERTIFICATIONS

WEB INTERN

BrainlyHood Technologies, Amravati • 2024

- The certificate highlights the skills and hands-on experience I gained during my internship at Brainlyhood Technologies. It showcases my ability to work in a real-world development environment, collaborate effectively with a team, and apply my technical knowledge to practical web development projects.

C,C++

Code-MBS • 2021

- Learned core programming concepts in C and C++, including data structures, memory management, and object-oriented programming. Gained hands-on experience in writing efficient and logical code."

INVOLMENT

Team Member – Event Coordination & Poster Design

Sipna College of Engineering & Technology, Amravati

- Designed promotional posters and materials to effectively communicate event details and attract participants.
- Contributed as a team member in organizing and coordinating the PCB Design Workshop, ensuring smooth execution.
- Assisted with hands-on PCB design activities, providing technical support to participants throughout the workshop.
